ABOUT US

Julie Pankey is an internationally recognized spa director, spa consultant, and wellness tourism expert. With 30+ years of experience, Julie guides her clients to build wildly successful businesses.

Consulting from a holistic standpoint allows Julie's clients to be able to take a step back from working in their businesses so they can work on their businesses.

Massive shifts happen when Julie works with open-minded spa, hotel, and resort owners. Finding a healthy balance between the heart and brain of the business allows her clients to experience financial freedom, peace of mind, and the ability to explore passions that have taken a back seat for years.

Julie enjoys giving back to her industry by serving on multiple spa and wellness boards. She also supports peers in the spa industry through her SpaHive Community and sets new spa owners up for success through her Spa Professionals Academy.

Why SpaHive

Connection

SpaHive events are about connection. We include our vendor partners in all of our activities because we know that people purchase from people. Our events are about relationship building and showcasing how you offer the very best partnerships for our spas.

Partnerships

In the SpaHive we create lasting partnerships. Our vendor partners apply to return year after year, event after event. We promote our partners in the media as well as through all of our channels. Our vendor partners close deals at every event and gain access to a huge network of spas nationwide.

Networking is not just about connecting people. It's about connecting people with people, people with ideas and people with opportunities.
